Re: June 3, 2021 Kansas Open Records Act Request # 1623859697

Mr. Aaron,

On June 16, 2021, we received your email requesting records in the possession of the Kansas Corporation Commission (KCC) for the following:

Description:

Running Foxes Petroleum operates three leases on the Kansas/Missouri border approximately 50 feet east of the state line. Discharges of oil and produced water from the Emerson and North Stoner leases have impacted the UNT in Kansas, which is a tributary to Shiloh Creek. I am requesting records for spills and KCC and/or KDHE response/removal actions between 2015-2021. Records such as the initial spill reports, final spill reports, photographs, removal and remediation information, water sampling results (if any), KCC enforcement actions. Specific information: Running Foxes Petroleum.

Based upon our understanding of your KORA request, we are enclosing 274 pages of documents responsive to your request pursuant to the KORA, K.S.A. 45-214 *et seq.* This constitutes the completion of your request.

Respectfully,

Lynn M. Retz  
Official Custodian of Records  
Executive Director
